Hello all! We at Mohawk Finishing Products have some fantastic product previews for you this quarter. We are going to feature three new products that have been released for sale this month. The first new product is our [Ultra-Flo™ Ultra Bond Clear](#) aerosol for hard to coat surfaces. Second we have introduced [Finisher's Glaze™ Glazing Stain Aerosol](#). Finally, we will now carry a stock line of [Patchal™ Putty](#) in 24 convenient colors.

We expect many of you will find the featured new products a good addition to your current arsenal of touch-up and repair products. Call your account representative to inquire on the availability of the new products.

We also are waiting expectantly on the new training DVD's. For us, this is like awaiting the birth of a new baby. Everyone is very excited and anticipating the delivery of the Wood Touch-Up and Repair DVD. Following its arrival the Professional Leather and the Professional Finishing System DVD's will be in the works. We will be sure to let everyone know when the DVD's are available.

As always we appreciate your loyalty to Mohawk products and can't wait to share new and improved products with you in the future. Thank you for making the first year of the newsletter a success. If you have any suggestions for the newsletter please let us know by emailing us. [Comments & Suggestions](#).

Features

Ultra-Flo™ Ultra Bond

M102-0550

Many doing repairs have either come in contact with a UV coating or will probably come in contact with one in the future. You have most likely found that it is difficult or to disguise scuffs, rubs, or sanding in a UV film. Most coatings will not adhere to the surface of a UV film or flow out without leaving a "halo" effect. These kinds of issues are due to the many types of UV cured finishes. Each of which have a unique chemical property.

Mohawk Finishing Products has developed a product that addresses all of the above issues with a clear aerosol touch-up. The Ultra-Flo™ Ultra Bond is specially formulated to flow out over hard to coat surfaces such as UV, 2 component polyurethanes, polyesters, etc. Ultra-Flo™ Ultra Bond is not a UV finish, but a clear topcoat that adheres to and blends well over a UV coating. It does not provide the same durability to chemicals and marring as a UV topcoat. The Ultra-Flo™ Ultra Bond can be used over many different types of UV coatings, conversion varnish, polyurethanes, etc.

Ultra-Flo™ Ultra Bond will be available in four stock sheens.

Available Sheens

M132-0550 [Gloss](#)
M102-0551 [Semi-Gloss](#)
M102-0552 [Satin](#)
M102-0553 [Flat](#)

Related Products

Mohawk Finishing Products can also custom match a sheen for you. If you would like to know more about the [Ultra-Flo™ Ultra Bond](#) be sure to contact your account representative.

Finisher's Glaze™ Glazing Stain Aerosol

Finisher's Glaze™ Glazing Stain is a quick and easy way to glaze. Finisher's Glaze™ Glazing Stain is a medium viscosity professional glaze that provides quick initial flash dry and excellent adhesion when used with most common finishes.

Why aerosol glazes? Aerosol glazes provide fast and easy application with no need for cloth or brushes. Gets into corners and carvings faster than a brush. No need for stir stick and no drippy mess down the side of the can.

Where are aerosol glazes used? Finisher's Glaze™ Glazing Stain can be used for touch-ups, to add color to light areas or for carvings and moldings. The aerosol glaze can also be used for small glazing jobs in manufacturing and refinishing.

What are the features and benefits of aerosol glaze? Finisher's Glaze™ Glazing Stain provides quick delivery and dry time saving you time and money. The glaze provides high opacity and good coverage for less product usage. Finisher's Glaze™ Glazing Stain can be used with nitrocellulose, pre-catalyzed or conversion varnish finishes which mean greater

versatility making this very user friendly.

What are the advantages of using aerosol glazes? The aerosol glazes can be used anywhere bulk glazes can be used. They require less drying time than bulk glazes and can be used as a distressing tool.

Finisher's Glaze™ Glazing Stain is available in 6 popular colors as well as a convenient 6-pack assortment.

Featured Website

This quarter we are featuring a website that is a good resource for Mohawk products. FinishShop.com is a site hosted by Dave Biggart who is one of Mohawk Finishing Products field representatives. You will find a downloadable catalog, color guide and some good product shots that show color. You will also find pictures of finished panels and the steps to achieve that finish. We hope that you find it as a good supplement to Mohawk-Finishing.com.

Ordering

You can order the featured products or any of our products by contacting your account representative, customer service or on our web site www.mohawk-finishing.com. To ensure your correct pricing level please be sure to use your account number. Your account number is [ReplaceString Content= Contact: OCNbr].
